| Team ID | PNT2022TMID49916 |
| Project name | Project – Skill / Job recommender application |
| Maximum marks | 2 Marks |

Problem solution fit:

CUSTOMER STATE FIT:

To explore our product to customer, what can we make for them, and how it suitable for them.

CUSTOMER LIMITATIONS:

The application provides the details about the jobs available for the required skill set. If the skills set doesn't match any job, we can't find.

AVAILABLE SOLUTIONS:

To solve the distance maintenance problem, only one solution is there, which is to create and implement our application to all over India.

PROBLEMS & PAINS:

The main problem for the application is to maintain the user level, because the user only applied for job recommendation, if every user registers in this application, there will be an accuracy of the problem.

SOLUTION GUESS:

We planned to implement our applications in all colleges and institutions. This will let us know about the uses of this application.

HOW WE DIFFER FROM:

We planned to give an ads on every user friendly apps, News papers, giving awareness to all job seekers.

WHO IS YOUR CUSTOMER:

Job seekers are our customers.

LIMITATIONS TO BUY:

This is not a certain need in all people's life, so there are no limitations.

COMMUNICATION BARRIER:

This will create difficulty in the server and maintenance will be lagging.
