Project Design Phase-I

Proposed Solution Template

Date	29/09/2022
Team ID	PNT2022TMID49916
Project name	Skill/Job recommender application

Proposed Solution Template:

S. No	Parameter	Description
1.	Problem statement(problem to be solved)	Users with unique preferences and tastes that make it difficult to develop accurate profiles.
2.	Idea / Solution description	It can be solved by proposing a novel collaborative filtering approach.
3.	Novelty / Uniqueness	Professional networking is the primary identity of this job recommender system; it is different from other social media platforms.
4.	Social Impact / Customer Satisfaction	It helps users in finding jobs that match their personnel interests.
5.	Business Model (Revenue Model)	The core features are provided for free, but the company charges money for extended features to recruiters as well as job seekers to aid job search.
6.	Scalability of the Solution	The performance and the accuracy can be improved by the novel collaborative filtering approach.
